

## "Confused World" is Challenge to Youth Says Sen. Jespersen

State Senator Chris Jespersen, of San Luis Obispo county, told the students of California Polytechnic college in an assembly early today that the present world emergency had brought with it a great deal of confusion in the minds and actions of the older generation. "The confusion existing today is a real challenge to young men of college age but it offers opportunity for young men well trained in agriculture and industry to step into positions of leadership and eliminate some of this confusion," Senator Jespersen said.

Recalling his early life in San Luis Obispo, before the coming of the railroad, Senator Jespersen explained how free land in those days enabled any industrious man to become a farm owner but now corporation farming has created a problem by increased production which has created surpluses, decreased the purchasing power of farm families, and increased the tax load by making necessary pensions to aged destitute citizens.

The Senator stated that a return to ownership of small farms by individual farm families would undoubtedly decrease efficiency of farming but it would enable the rural residents to maintain the high standard of living which is an American privilege.

Praising the type of vocational education which is being given at California Polytechnic, Senator Jespersen said, "That even though the great universities in past years have laughed at the idea of vocational education, we realize now that vocational education is important and that colleges like California Polytechnic are now giving the type of training that will enable young men of California to meet and solve the problems of today and the future."

The assembly was sponsored by the Young Farmers at Cal Poly, and was presided over by Harlan Detlofsen, Young Farmer president. Henry House, prominent Young Farmer member, gave a short talk on "Who are the Future Farmers?" The assembly was in the form of a celebration of National Future Farmer Day, which was yesterday, since the Young Farmers is a branch of this organization.

Entertainment during the hour was presented by the band and the Collegiate Quartet, which sang three Negro spirituals. Mr. Vernon Meacham, supervisor of the Vocational Unit, was introduced and complimented Mr. Davidson and the band on their music.

## Ag Bureau Aids Defense Conservation

Answering the call of the Secretary of Agriculture for expanding the production of a group of needed farm commodities to meet the war emergency needs, the Bureau of Agriculture Education throughout the 196 high school vocational agriculture departments are assisting the federal government to reach the goal established.

The Bureau of Agriculture has supplied all agricultural teachers with information on the amount of expansion in various products so that individual high school departments may inform farmers accordingly. Likewise, the bureau is supplying information as to what each county should use as basis for expanding the project activities for the Future Farmers.

Production goal for San Luis Obispo county expressed as a percentage of 1941 production are as follows: milk—112 per cent; eggs—122 per cent; hogs—107 per cent.

The increased food supply requested by the government is needed for three purposes. (1) To provide all food and fiber American people will need. (2) To produce at least one billion pounds of food for Great Britain. (3) To produce extra supplies to be held in reserve until after the war is over.

For the nation as a whole the increase of production for 1942 called for amounts to 9,000,000,000 pounds of milk more than this year; 500,000,000 more eggs; 8,000,000 more hogs to be butchered; and 3,000,000 more cattle. For California alone their increases are as follows: 6,000,000,000 pounds of fluid milk in 1942; milk cows must be increased 6 per cent; eggs increased 27,000,000; hogs, 8 per cent.

## Art Student Cuts Petty Masterpiece From Esquire

Through the efforts of our "broad" minded librarian "Buck" Lash, the Poly library has been supplied with copies of that publication for men only, Esquire. One student, who had better remain anonymous, has already evidenced the appeal this magazine has for his aesthetic sensibilities by removing a Petty masterpiece from one of the Esquires now on the shelves in the library.

In case any of the more naive readers don't already know what a Petty masterpiece is, they should run, not walk, to the library and do some research immediately. However, the sad truth is that such individuals will have to wait in breathless expectation for next month's Esquire before they can do any such research because the principal masterpiece is missing from the current copy of Esquire.

Although the removal of a magazine picture may seem relatively trivial, in reality it is an act in direct opposition to the spirit of cooperation desired at Poly by Poly students. Therefore, the studentbody sends out a plea to the fellow that so selfishly appeased his appetite for art at the expense of the rest of us, to return the picture to the Esquire he got it from without losing his anonymity. It is hoped the unknown villain will comply with this request promptly because several persons are getting "petty" angry about the whole thing and may do something drastic to maintain their rights to enjoy all the material in our library.

## Band to Disclose "Secrets"

Because of many requests from various Poly men, the band will try a different procedure at the coming Poly-Cal Rambler game this Friday night. The sparkler stunt went over in fine shape. The lights used on the caps of the band men at the last game were very colorful.

However, this Friday night, the audience will see the band march. Different formations will be used; the high step will be featured and the band will play many numbers while going through their routine. The Spanos brothers will do more of their intricate twirling while the band endeavors to try a stunt never before used here—the switch and play routine. Perhaps we had better not say too much about this—if it works, you'll see something funny. It is rumored that "Red" Sullivan, head of the stunt committee, is going to "pull something different," also.

Plans have already been made for the San Francisco State game and for the Homecoming game with Humboldt State on Nov. 8. The San Francisco State band always does an excellent job whenever it comes down here and there is quite a bit of rivalry between the two bands. For the Homecoming game, it is hoped that it will be possible to put on the very difficult routine of the Spanos team between halves. When this is certain, more news on this will be published together with pictures of some of the routine.

## President McPhee Attends Chamber of Commerce Meet

President Julian A. McPhee, of California Polytechnic School, attended the State Chamber of Commerce convention in Oakland yesterday.

# Scholarship Awards at Sears Banquet

## Livestock Competes at Cow Palace

On November 13 the Poly entries for the Grand National Livestock Show at San Francisco will leave the campus. The show will be held in the new Cow Palace and is expected to be one of the outstanding exhibitions of its kind in the country.

**STEER EXHIBITORS**  
Angus steers from Poly will be exhibited by Bill Verdugo, Tom Brumley, and Bob Ryan. These calves will be shown as individuals as well as a pen of three. In the heavy Shorthorn division will be steers owned by Phil Vaughn, Roland Allen, and Robert Moore. Ed Bettencourt, Alvin Lypps, and Tom Brannum will show calves in the lightweight Shorthorn classes for individuals and pen of three. Hereford steers owned by George Raymond, Bob Phillips, Steve Allison, Tom Brannum, "Hap" McKenna, Carlton Smith, Bob King, Willie Day, and Don Warden will be shown in classes for groups and individuals of that breed.

**TO SHOW SHEEP**  
The sheep department will be represented by a carload of fat lambs owned by Stanley Burger, Bob Whitaker, Bob McNeese, John VanAustin, Jim Stowell, and Charles Morris. Individual crossbred lambs will be shown by Don Adkins and Allen Nesbitt. Bob Bogner and Curt Ullman will enter individual Hampshire lambs in the fat sheep division of the show.

**HOGS TO BE SOLD**  
Fat hogs owned by Ed Bettencourt, Laurence Crook, Bill Reddick, Alvin Lypps, and Gordon Woods will be exhibited. These hogs, as most of the other entries from Poly, will probably be sold at the auction held as part of the show.  
Lynan Bannon, meat animal dealer, stated that he hopes a good many students will take advantage of the Thanksgiving vacation to be present at the showing and sale of their animals, if not the whole show, which lasts from November 15 to 22. All fat stock will be judged on November 17, with individual judging held in the morning.

(Continued on page 4)

## Gators to Visit Poly

Word has been received that the students of San Francisco State college are planning a football excursion to their game with Poly to be held here Oct. 31. Poly student officials announced today that every attempt will be made to definitely plan a big reception for their studentbody.

The officials in charge of the reception are planning to duplicate the program used two years ago at which time Poly was San Francisco's host on a similar occasion. At that time the entire Poly studentbody met their special train at Hathaway Crossing and then everyone paraded back to the campus under the leadership of a combined band from both schools. Following the parade the visitors were taken for campus tours in horse drawn buggies. Then an afternoon dance was held and the Poly swimming pool was opened. Following the game an open air barbecue was held in Poly grove. A perfect day was then concluded with a studentbody dance in the gym.

Relations between the two schools have been excellent in the past few years. Last year's Poly Royal queen, Miss Barbara Biggs, came from there. John Carriacuru announced that the next studentbody dance will be held following the Poly-San Francisco game and admission will be by studentbody card. He also stated that football programs (the Goal Post) will be issued free in the future to studentbody card holders at the home games.

## DINNER DANCE GIVEN BY GAMMA PI DELTA

The Gamma Pi Delta dinner dance held at Mattie's last Tuesday evening was said by many to be the most entertaining event of its kind ever attended by them. After enjoying a steak dinner, the members and their friends danced to the music of the Poly Dons until midnight.

The faculty was represented at the affair by Mr. and Mrs. Ilg, Mr. and Mrs. Beck, Dr. and Mrs. McCapes, and Mr. and Mrs. Boone. The Wives of the faculty had the doubtful pleasure at various times during the evening of dancing with different Gamma Pi's.

## Poly Court Sentences 2 Students

The cases of two students have been heard in the first two sessions of the student court.

George Beach was put on probation for a month at the Oct. 8 session of the student court. Beach appeared before the court and pleaded guilty. He was charged with speeding on the campus.  
Bob King failed to appear before the Oct. 13 session of the court. According to Harry Wineroth, court reporter, the failure of a defendant to appear at an announced time is recorded as a direct admission of guilt to the charges filed against the defendant. In view of this, the court decided to revoke King's driving privileges on the campus for a month and to place him on probation for the following three months. King was charged with discourteous driving and with breaking Poly traffic regulations. Wineroth reported.

## NYA QUESTION

J. K. Dunbar, resident supervisor for the Poly NYA unit, recommended at the Oct. 13 session that the student court have jurisdiction over residents of that unit. He also suggested that three representatives from the NYA be permitted to sit through those cases trying students of the NYA; however, the SAC in their last meeting ruled the addition of NYA representatives to this court unconstitutional as directed by Article V, section II, of the Constitution of the Associated Students. It was decided, however, that the SAC president appoint an intermediate board to act upon subjects concerning the interests of the Associated Students and the NYA unit.

The Student Court is authorized by the Constitution of the Associated Students to hear all cases in which the welfare of the Associated Students is involved. Any student disregarding the decisions of the Student Court will be referred to the administrative council; in such an event the penalty would probably result in dismissal from Poly.

## Grid Programs To All Members

Cooperating with the graduate manager's office to increase the benefits derived by owners of studentbody cards, Glenn Arthur, assistant editor of The Goal Post, official football magazine, today announced that for the remaining home games of the season one copy of each issue will be given to student card holders free.

To facilitate distribution a table will be set up at the north end of the Poly routing section where studentbody members will receive the colorful, informative football magazine upon proper identification by their studentbody cards, explained Arthur.

"Any enthusiastic Poly students who would like to earn money selling these programs to other than student card holders, please report to either Mr. Kennedy or myself before 5 p. m. today," Arthur announced.

There are positions open for 11 salesmen and the first capable experienced boys to apply will be assigned the most profitable posts. A 20 per cent commission is paid on all programs sold.

## McPhee Receives Checks for 25 Frosh, One Sophomore Scholarship

J. P. Prantow, district manager of Sears Roebuck and Company, presented Julian A. McPhee, president of the California Polytechnic college, with a check for \$2600 for student scholarships at the second annual Sears Roebuck scholarship banquet held in the Anderson Hotel Wednesday night.

## Notice a Change? El Mustang Has Face Lifted

Expanding to a seven column, twenty and one-half inch paper, improving its physical makeup by the addition of column rules and use of a new head style, El Mustang took another step toward making your school paper more representative of the studentbody it serves.

The enlargement is made possible by the great amount of advertising obtained by the energetic and industrious business manager of El Mustang, Dick Harrell.

Addition of the extra column and greater page length will increase news space by one hundred fifteen inches and will make it possible for this paper to publish more news about the many activities of your school and its many organizations. All clubs and class organizations on the campus are urged to request their reporters to supply the editorial staff of El Mustang with the news of their clubs.

Typographical improvements include the addition of column rules between the columns of the paper, which will give added reading ease to the pages, and the change in head style is in keeping with that used by leading metropolitan dailies throughout the nation.

Through the diligent efforts of every member of the editorial and mechanical staff of your paper, El Mustang will continue to improve in its quality of content and appearance to keep in stride with the progress being made at California Polytechnic school.

## Collegians Add New Men and "Hot" Numbers

The reception of the new "Collegians" has been even greater than the members had hoped for, inasmuch as there are six new men in the orchestra this year. Everyone has been most complimentary and once again the boys know that they have the entire Poly studentbody solidly behind them as has always been the case since the orchestra was organized back in 1936.

With separate rehearsals by the sax and brass sections on two days of the week, and rehearsals by the entire orchestra two nights a week, the members are really getting that style of playing together; that perfect teamwork that was shown last year. Even more variety will be demonstrated by this group than last year's, for in addition to the "Three Dukes," the "Four Field Marshalls," and the featured vocalists, the "Rhumba" group with Garbani on the maracas, Stead in the accordion, Sullivan on drums, Hawkins on guitar, McCorkle on trumpet, Greinetz on clarinet, Raymond on bass, and Pappas on the sticks, has presented some very unusual and tuneful numbers.

That the orchestra will reach its mid-season form in a hurry is an assured fact. Another feature that has received some compliments has been the singing of the Collegiate quartet with the orchestra. You will hear more of these men for they have adopted a different style than they used last year. Three are old men: Struckmeyer, Nicolaides, and Raybourn, while the first tenor is a freshman, Ted Wardell.  
The "Four Field Marshalls" have been very busy this past week. They sang Monday night at the 20-30 club, Tuesday morning at the high school assembly, and Wednesday night at the Sears Roebuck Scholarship dinner at the Andrews hotel.

William Crinklaw, Cal Poly student from King City, was awarded his American Farmer degree at the Kansas City FFA convention this

Twenty-four of the 26 winners of the scholarships were present at the banquet. Sears offers 26 scholarships of \$100 to California farm boys of good character and capabilities who might otherwise be unable to attend college, and one \$300 scholarship to the outstanding sophomore from the previous year's scholarship group.

L. A. Barley, manager of the local store, presided at the banquet and introduced the various guests. Mayor Fred Kimball gave a short talk using the "V for Victory" theme. Kimball stressed the importance of our democratic way of government which enables institutions such as California Polytechnic to exist and train young men for positions wherein they may work for their own welfare and not as slaves of the State.

Others who spoke during the evening were: Parker Talbot, county farm advisor; W. L. Hobbie, largest almond grower in California; Jean R. Paulson, editor of the Telegram-Tribune; F. E. James, Sears Roebuck public relations director; and J. I. Thompson, livestock specialist from California Polytechnic.

Receptants of the freshman scholarships present were: Donald Calmader; John O. Campbell, El Centro; Robert E. Cronka, Hayward; Elvin K. Davis, Modesto; Lawrence Fawcett, Lodi; Alfred V. King City; William E. Riverside; Arthur T. Grant, Fresno; Hans J. Hansen, Caruthers; Donald L. Lindsay, Santa Paula; William L. Longatti, Modesto; Fred Glenn McConkey, Fillmore; Joe W. Maps, Hayward; William Mayhew, Fillmore; Richard E. Morr; Santa Ynez; Roy Pata, El Centro; Alvin J. Robinson, Redwood; Edward O. Staben, Santa Paula; Oliver A. Terrill, Paso Robles; Harry E. Smith, Petaluma; and Avery Overgard, Modesto; and Robert K. Speck, Hanford.

Named as the outstanding freshman scholarship winner, Loren E. McNicholl, Riverside, received the \$200 sophomore scholarship offered by the Sears Roebuck people.  
The two freshmen winners who were unable to attend were: Harry O. Graham, El Centro, and Leo L. Hanley, Santa Ynez.

Among the guests were: Robert Burns, Telegram-Tribune business manager; Russell Davis, Sears credit manager; W. D. Hensley, Sears display manager; George Davies, manager Sears Santa Maria store; Ray C. Davis, assistant manager San Luis Obispo Sears store.

Representing the faculty of the college were: Oscar Luckinger, dean of instruction; Walter Pochett, dean of agriculture; M. O. McCorkle, subject matter specialist; Carl Beck, instructor and advisor Young Farmers; Vernon Meacham, in charge of the branch at San Dimas; Byron McMahon, regional supervisor; Bert Rina, regional supervisor, and Robert Kennedy, journalism instructor.

Musical entertainment was supplied by the "Four Field Marshalls," Kenneth Hawkins, Chester McCorkle, Hal Greinetz, and Stanley Raymond.

## Poly Men Delight In "Swinging The Corn"

Students at California Polytechnic will be given the opportunity to feed their project animals of corn this fall.

The meat animals department has purchased through the Southwestern Pacific milling company of San Lucas, 44 tons of corn from the Flanley grain company of Bloom City, Iowa. This corn was sold at the California Polytechnic for \$35 per ton. There was a saving of 20 cents cwt., by handling the corn in the bulk. The meat animal boys were given some practical experience in the handling of bulk grain. This was done during the laboratory. The corn was moved from the Hathaway siding by the use of the horses and wagons of the school in five hours.

## Freshman Officers for 1941-42

The freshman class officers elected Sept. 30 are, left to right: Edwin Palonsky, sergeant-at-arms; Alvin Quist, vice president; Jim Morris, president; Chet McCorkle, secretary-treasurer; and Loring Dale, sergeant-at-arms.

## Poultry Dept. "Cackles" as Hen Lays Golden Egg

It is a pullet not in goose which laid the "golden egg" for the California Polytechnic college poultry department.

Word was just received from the American Poultry Journal in Chicago that one of the California Polytechnic student-owned White Leghorn pullets, competing in the autumn egg laying test held in Modesto, California, had won the "Golden Egg" trophy by scoring 329.45 points in one of the most difficult egg laying contests in the United States.

The final results of the fifty-one week egg laying test which ended September 22, shows California Polytechnic student-owned pullets in fourth place in the champion

class, having made \$3.21 above feed cost. As far as is known, these are the only student-owned pens entered in any official egg laying contest in the United States. Of the twenty-six entries, representing ten states (New Jersey, Pennsylvania, Missouri, Massachusetts, etc.) all but Cal Poly entries are by commercial breeders.

The new 1941-42 egg laying test, which started October 1 and ends September 22, 1942, is now under way at Modesto and Cal Poly is entered by 26 White Leghorn pullets from the trap nest projects of three poultry students, Charles Reed, Gordon Burnett, and Pete Trumphy.

These student-owned birds are

entered in the champion class in which pens compete on the basis of market value of eggs over feed costs, and they are also entered in the standard class in which two pens of thirteen each compete on the basis of number of eggs and the size computed on a point basis.

Last year was the first time any Poly poultry students had entered in open competition, according to Richard Leach, poultry instructor at the state technical college. The entire California Polytechnic poultry plant, numbering near 8000 birds, is maintained and operated entirely by the students. Last year the poultry students earned about \$4500 from their project activities.

## AN OPEN... "OPEN FORUM"

The American people and the American press have reciprocal obligations to protect each other's freedom. Recently El Mustang renewed a popular feature which we call "Letters to the Editor... An Open Forum." The fundamental purpose is to give opportunity for students to voice opinions on matters pertaining to campus activities, student welfare, etc.

Naturally much of the material which has been and will be printed in the Open Forum column is of controversial nature. There is nothing undesirable about voicing controversial subjects in the columns of El Mustang. In fact, we encourage it, for nothing arouses interest among readers more than spirited argument, cleverly handled in an Open Forum column. However, it is easily understood how certain individuals might take advantage of such freedom offered for the expression of their opinions. The tone and content of their letter to the editor might exceed the confines of good taste, or they might attempt to settle a personal grudge or air a personal "gripe" through the columns of this paper.

We must realize that we have in the whole matter of freedom of the press, as in so many other matters, reciprocal duties. The newspaper, on the one hand, has the duty to be free and truthful. It does not deserve to be free to speak unless it be free itself, not subservient to any hidden influences, and eager to turn the clear light of truth of all the difficult problems that face young people today. On the other hand, the students have the obligation to guard and protect this freedom most sedulously. They should remember that lack of good taste over petty matters might possibly lose for them the freedom in which they would profit most from if it were put to more constructive use.

So let's make the El Mustang Open Forum an alive, interesting column devoted to constructive criticism. In that way the students of this school and their paper can fulfill their reciprocal obligations to protect each other's freedom.—W. L. C.

## Letters to the Editor ---

Dear Mr. Editor:

I was somewhat surprised to read in last week's edition of El Mustang an article concerning the student store.

The student store is a non-profit organization and that in the main reason why more help is not given in the store.

Where else in town could you get milk shakes for a dime that could compare with the ones that are made at the student store.

School supplies are sold at the lowest prices obtainable but some smart freshman seemed to overlook this fact.

The students could help out a lot on this if they would buy something and then make room for somebody else. Some just sit at the counter and order a nickel drink and loiter around for quite a long time.

Some students don't seem to realize that the majority of the business is between periods, and that after their next period begins the student store becomes lax.

If you students want more help at the student store it is going to raise the prices and I am sure that the majority would not want this to happen.

Experienced.

At the beginning of the quarter we were told that we were to have a new cafeteria in working order by September 15. On September 15 we were told that it would be October 1; on October 1 it was to be October 15, and now there are rumors that the new cafe will not be ready until November.

(Continued on page 4)

## Don Cobb, Star Farmer, Is Outstanding Scholar

By Charles Mendenhall

Outstanding as a scholar as well as a farmer, planning an appearance and personable manner, Don Cobb, Madera, holder of the 1941 State star farmer title of the FFA, now a student at Poly, could well be called the State's star, all-around boy. The tall, lean, handsome young man, during his four years at Madera high school, conducted a program embracing extensive agricultural operations, athletics, leadership in FFA, and other school organizations, and maintained a grade standing in all his subjects high enough to obtain California Scholarship Federation membership.

With all his honors, Cobb is modest and unassuming, obliging and sincere, and he makes an excellent first impression on those he meets.

From a small beginning with two grade Hereford steers, Cobb built up a well rounded project while an agriculture student at Madera high school. Selling his steers during his first year as a vocational pupil, he re-invested his profit in a purebred Hereford heifer and feeder steer. From money made on the

at the State Fair in 1940, taking first in its class at the Los Angeles county fair with the same steer that same year and winning honors at the junior livestock show at Treasure Island with a steer in the middleweight Hereford class in 1939.

That same year he showed lambs at the State Fair winning third and fourth places, and at the Los Angeles fair, where he took sixth and seventh. Cobb has also shown at innumerable county fairs.

For the past three years, he placed first in regional project competition, and for the last two won the Safeway cup for best showmanship.

In a contest sponsored by co-operative markets of Fresno and vicinity, Cobb placed first with his essay on "Cooperative Marketing" which aided his Future Farmer chapter in winning the judging for the organization with the largest and best response in the competition.

Madera chapter also received a plaque for the most outstanding beef exhibit at the state fair in 1940—the year in which Cobb won grand championship title.

SCHOOL LEADER

Cobb was a leader in many school organizations. In his junior year he served as secretary of the Madera Chapter, Future Farmers, and was elected president the following year. He was vice president of his class during the last semester of his sophomore and throughout his junior term.

Cobb also held the office of vice president of the Boys' Federation during the second semester of his senior year in school, and served as president of the California Scholarship Federation.

Membership in the C. S. F. (honor society) alone is a signal honor, eligibility in most schools being based on the student maintaining a three A, one B average. Average membership of chapters throughout the State is 10 per cent of the enrollment of the schools.

Despite the aforementioned activities Cobb did not neglect athletics, being a letterman in both football and track. At Cal Poly he plans to participate in track.

SCHOLARSHIP WINNER

Cobb was selected by the Sears Roebuck company as being worthy of one of their 25 general scholarships, and is enrolled here as a meat animal degree student. In co-operation with Elwin Davis and William Longatti, he is conducting a hog feeding project with nineteen grade pigs.

As a vocational student he was instructed by H. H. Burlingham, H. H. Griswold, and A. W. Hatch. He is to receive the American Farmer award to win.

## McMahon at Grange

B. J. McMahon, regional supervisor of vocational high school agriculture education, represented President Julian A. McPhee at the annual convention of the California Grange held at Santa Barbara this week.

McMahon was accompanied by Herman Sperber, of the California Young Farmers, and Earl Bishop, state vice president of the Future Farmers.

## Philbins Philosophy

In the years far gone by,  
(At least in my time)  
What this country needs,  
Is a new nursery rhyme.  
I figure it this way,  
A campaign should be made  
And our problem before  
Some good poet be laid.  
I'm trying myself,  
But can't seem to begin.  
It's the precarious position  
It happens I'm in.  
The I sit here a thinking  
All in vain, Oh alas!  
Can't think of a thing  
That my censors would pass.  
The censor is right,  
But their brain must be bent  
For there's nothing suggestive  
In all I give vent.  
The reason I'm thinking  
Of new nursery rhymes  
Are just that the censors  
Aren't up with the times.  
So don't blame me fellas  
Or brand me a sinner  
It's just that the censors  
Stopped the line with a kick.

## TUNE IN TIME

By Taylor

Greer Carson and Basil Rathbone will be co-starred in one of the greatest stories of this generation, James Hilton's "Goodbye, Mr. Chips," on the "Screen Guild Theatre" broadcast over the Columbia Network Sunday, Oct. 26, 1942—the year in which Cobb won grand championship title.

Jack Benny will recall highlights of his career in Uncle Sam's Navy, during a special Navy Day dramatization which will feature his NBC broadcast Sunday, Oct. 26. Benny and his gang will be heard from 8:30 to 9 p. m. PST, over the NBC-Blue Network.

Benny served with the Navy at Great Lakes Training Station in 1918, and carved a career for himself as a comedian of the Navy. The director of entertainment, having heard that Benny was a vaudeville violinist prior to his enlistment, asked him to appear in a show for the enlisted men. When Benny started to play, applause was conspicuous by its absence, so Jack tucked his fiddle under his arm and started to talk. He hasn't stopped since.

... a lot of orange juice  
Rochester, Eddie Anderson, who is Jack's butler on the Jello programs gets paid by Jack in oranges instead of money. He announced that he has purchased four race horses at Saratoga Springs and will race them on western tracks. In addition to operating a stable of race horses, the Negro comedian also owns a yacht, a station wagon and a horse trailer to match and a bigger limousine than Jack Benny's.

... horror ... and then murder  
Boris Karloff, one of the star horror men of stage, screen and radio, will return to frighten listeners to Inner Sanctum Mystery Sunday, Oct. 26, from 8 to 8:30 p. m. PST, over NBC.

The drama is titled "Terror On Bailey Street" and concerns a man who loves cats, even to the extent of murdering a man when he injures one of his pets.

President Franklin D. Roosevelt, speaking at a dinner arranged by the Navy League on the occasion of Naval and Total Defense Day, Monday, Oct. 27, will be heard over the combined Blue and Red Networks of the National Broadcasting company from 7 to 7:30 p. m.

## Prexy Walt Dougherty Is Dramatist, Musician

By Don Seaton

All of you know our student body president, or if you don't, you should, for Walter Dougherty is one of the prominent figures on our campus. Walt has led a rather colorful life, and I'll try to tell you the highlights of his career so far. Dougherty was born in Davis, California, and graduated in 1937 from Davis high school. In high school he played basketball three years, football three years, and was on the track team for four years. Walt played an important part in dramatics at Davis, being in every school play during his four years there. Walt had the honor of being the Davis high school music association's first president.

After working for six months following graduation, Walt entered San Francisco State in 1938, majoring in music and holding a minor in social science. However, he changed his course the other way around in the spring of 1939. Dougherty studied fencing for a year and a half in France, and was the captain of the college fencing team. Walt was a music enthusiast de luxe, being in the San Francisco State A Cappella choir. Also the Frisco State Opera Chorus, which was founded then to augment the chorus of the San Francisco Opera Company, had Walt as one of its members. This chorus sang in the opera "Die Meistersinger."

Not only in Davis high did Dougherty take an active interest in dramatics, but also he was a member of the San Francisco State theatre group. Walt had the leading part in the play "George and Margaret" put on in 1939 in the college. Leaving school at the end of the spring quarter, Walt did all sorts of farm work till September.

## From Your Prexy

This year at Poly the majority of the students are living on the campus. Almost all of these students are eating in the student cafeteria. Because of there being so many, the cafeteria crew is much larger than before but the facilities are still the same. The cafe is equipped to seat 200 and an average of that many is being served at every meal. Consequently it is running right to the limit of its capacity all of the time.

Breakfast is served from 8:00 to 7:30 a. m. every day but Sunday. At 7 a. m. about 300 of the 400 students arrive at the cafe for breakfast and expect to all be served by 7:30. But it doesn't work out because it takes time to serve each person and the kitchen is rushed to do the cooking. Then there are about 15 fellows who are habitually late and arrive just after 7:30 and want to be served. They forget that the fellows on the crew have to clean up and finish their work yet go to 8 o'clock classes.

Then there is the matter of the toaster. With so many more students than usual eating in the cafe there is a shortage of toast. Consequently at times we are compelled to ask you to take just one piece at a time to that everyone will have toast. Some of the fellows gripe their heads off not thinking about anyone but themselves and make the situation worse yet.

Entered as a transfer, our prexy held a combination major in poultry and aeronautics for the first quarter, after which he dropped aero. Walt was baritone in the glee club from the very start, also holding two offices in the club, those being secretary and manager. Walt, too, was a feature writer for El Mustang, and assistant editor of last year's El Rodeo. In the spring of 1941 he organized the

Walter Dougherty

Poly fencing team, the Mustang Swordsmen. Being a very skilled pianist, Walt became the Collegians' very tickler at the first of March. He was baritone on the Varsity quartet last year. Also Walt is a composer. His masterpiece is "Try to Be Good," copyrighted last spring. Bill Stead, Collegian pianist, is now arranging it for orchestra. Says Bill, "This piece of Walt's is a very good selection, and if I'm not mistaken, it will be one of the current hits if it receives enough publicity."

Walt is still hunting for the person who cast the lucky vote in the student body presidential last spring, for, as all last year's students know, he won by one vote. He has taken an active interest in the Mustang Swordsmen this year, being the assistant coach. Also Walter is on the El Mustang staff, writing his prexy column and doing general reporting.

After graduating from Poly in 1943, Walt plans to go back to his father's poultry farm, Everley Poultry Ranch, to enter partnership with his father and brother. It might be added that Walt's father was head of the poultry department at the University of California at Davis for 20 years, resigning in 1932. He is now members relations director and editor of Newland News for Poultry Producers of Central California.

# Mustangs Sluggish in Winning 14-0

## Poly Scores Twice in Second Half After Threatening All First Half

Playing an unsteady offensive game in the first two quarters, the California Poly Mustangs came back in the third and fourth periods to push over two touchdowns to defeat La Verne College, 14-0. This loss was La Verne's thirty-sixth loss in college competition.

**POLY FAILS TO SCORE**  
The Poly offense, which clicked well until the Mustangs got deep within La Verne territory, failed to bring the Mustangs a score in the opening half. Shortly after the opening quarter started the Mustangs drove from their own 30 yard line to the Leopard's three yard marker. Lieb drove off tackle but fumbled, the visitors recovering on their own two yard line. La Verne punted, Poly taking over again on the La Verne 30 where the Leopards held the Polyites on downs.

A complete new Mustang team started the second quarter and with the 1-2-3 on the La Verne 30, drove to the 15 only to be stopped again. A La Verne fumble was recovered on the Leopards' five but the Mustangs could only make three yards in four plays against the stubborn La Verne defense. The two teams battled on even terms for the remainder of the first half.

### LIEB SCORES

After five minutes had elapsed in the third period the Mustang offense, with the starting eleven back in the ball game, began to click once again. The Mustangs started from their own 47. Lieb tossed a pass to Bobby Martinez for 15 yards. On the next play Lieb passed again, this time to "Gordie" Woods for another 15 yards and a first down on the La Verne 10. Lieb carried to the three in two tries and Woods lost a yard on a reverse. On the next play Lieb smashed over tackle four yards and a touchdown.

### TOMMY WOODS GOES OVER

Poly's other touchdown was made late in the final quarter. The Mustangs had marched to the Leopard 22. Moore, La Verne quarterback, was ousted from the game and a 15 yard penalty followed which gave Poly a first down on the La Verne seven yard line. Tommy Woods operating at left half was held for no gain on the first try and then skirted his own right end for seven yards and another touchdown. Joe Soroka added both extra points with placekicks that split the uprights.

The lighter La Verne line put up a stiff defensive game with Sperline, Minnich, and Fillmore being outstanding defensively. Whirt, a pint-sized quarterback, was the Leopards' main offensive threat.

The entire Mustang line played heads-up defensive ball but the offensive blocking was not as good as it has been in previous games. The Poly backs were running in grand style when the line did any blocking at all.

## Gain 258 Yards From La Verne

Game statistics, as compiled by Glenn Arthur, are listed below.

Poly	La Verne
14 First downs	3
209 Net yards, rushing	38
49 Net yards, passing	22
12 Forward passes attempted	13
4 Forward passes completed	3
2 Forward passes intercepted	3
3 Number of punts	10
55.6 Average length of punts	38.1
3 Number of fumbles	2
35 Yards lost, penalties	50
Touchdowns: T. Woods and L. Lieb. Point after touchdown: Soroka, 2.	

### STARTING LINEUP

Poly	La Verne
Cook LT	Strum
Martinez LE	Harmen
Sohrakoff LG	Minnich
Lucksinger C	Fillmore
Wassum RG	Sperline
Nakunas RT	Henderson
Myers RE	Nelson
Long Q	Moore
Lieb LH	DeCoursey
G. Woods RH	Crist
Bragg F	Gnagy

## On the Side

By Glenn Arthur

La Verne College has been striving for a win for the past four years. In college competition the Leopards have lost 36 straight games including the trouncing dished out by our Mustangs last week.

Proxy Walt and Chuck Solomon did a fine job of leading yells at the basketball game last Thursday night. It was like the "old-time" Poly spirit. Too bad we don't have more of it, especially at our football games.

For the first basketball game of the year the Poly team looked plenty smooth. Amaro Pereira and Bernard Goodbody make the sweetest pair of forwards that Poly has had for quite a few years.

Bud MacDougall will be able to see action against the Cal Ramblers tonight. Bud has been nursing a twisted ankle for the past two weeks. In practice last week I saw him punt well over 60 yards consistently.

The Mustangs looked pretty ragged against the Leopards last week. The Poly team has to have some competition before it can really get down and play the type of ball it is capable of playing.

Bobby Martinez really burnt up the turf on those around end plays. On three attempts Bobby gained 29 yards. He also made a beautiful catch of one of Lieb's passes to set up the first Poly touchdown.

It looks like "Little" Joe Soroka has got his eye back. On the two conversion attempts last Friday night, Joe put his all into those boots and kicked them true.

## O'Daniels, Pavelko in Spotlight

Howard "Howie" O'Daniels was reared in Seattle, Washington, where he played varsity football in high school. Howie got his first taste of college football when he entered Santa Clara and played tackle on the freshman team. His last two years at Santa Clara he was under the coaching staff of "Clipp" Smith, now at Villanova, and "Buck" Shaw, who is still coaching at Santa Clara.

O'Daniels was taught the Notre Dame system of football. After graduating from college in 1930, "Howie" took his first job coaching at the Mission high school in San Luis Obispo and developed the first championship team at that school. The following year "Howie" came to Poly and coached the Mustangs. Poly won the C. C. C. C. championship every year until the league was broken up.

At Santa Clara "Howie" O'Daniels will be remembered as the greatest little tackle ever produced at Santa Clara. O'Daniels has been placed on the mythical All-Santa Clara team as the first string tackle ever since his graduation in 1930. While with the Broncos he won All-Coast honors in 1930. Pop Warner, now at San Jose State,

## Frank Watanabe Inducted by Army

Frank Watanabe was one of the unlucky ones and was called to do his duties in the U. S. Army.

Frank made his letter in baseball, playing second base for the Mustang baseball team. Frank was a good hitter and a fast runner, and filled in a gap at second base that was needed very much in the Mustang infield.

Poly not only loses a good ball player but also a fine fellow who was well liked by his team mates.

said, "O'Daniels is one of the best tackles I ever saw."

**ASSISTANT COACH PAVELKO**  
Charles "Chuck" Pavelko, assistant to O'Daniels, is another Santa Clara football star well grounded in the Notre Dame style of football. "Chuck" is new at Poly having just recently taken over the post formerly held by Don DeRosa.

Pavelko played three years of outstanding varsity football in fullback and quarterback positions at Santa Clara. It was also the same team that Don DeRosa played on. The team which Pavelko played on won the New Orleans Sugar Bowl classic against Louisiana State University two years in a row.

After leaving Santa Clara, Pavelko finished his degree course at Whittier college where he received his teaching credentials. While attending Whittier he played two years as quarterback on the Los Angeles Bulldog pro team and coached the backfield at the same time. He also was assistant to "Butter" Correll at Covina high school in 1940 and during that season they lost but one game.

## Poly Downs Army In Basketball Score of 70-32

Members of Poly's '41 basketball team made their first formal appearance Thursday, Oct. 16, in a wild and free scoring game with the Army team from Company H, 185th Infantry of Camp San Luis Obispo. The Mustangs took the Army to the tune of 70 to 32. Although Uncle Sam's boys put up a good scrap, Poly was never in danger after the first few minutes of the opening quarter.

### TAKE QUICK LEAD

The Mustangs opened the quarter with several quick scoring thrusts which were followed by scores from the Army, but as the quarter ended Poly had 16, twice the score of the visitor's eight. The first quarter score was typical of the scoring throughout the game. For every two the Mustangs would sink the Army would counter with one. As a result when the final whistle sounded Poly still had approximately twice the score of Company H (70-32). Due to the lenient refereeing of Canclini, foul shots were at a minimum.

Pereira and Goodbody of the Mustangs led the draw for the high point honors with each netting a total of 13, while high man for the Army was Fossell, who scored nine. The starting lineups were as follows:

Poly: Pereira, rf; Goodbody, lf; Stier, c; Arthur, rg; Audap, lg.

Army: Fletcher, rf; Herterhorae, lf; Fossell, c; Rayburn, rg; Ketchum, lg.

## Off my Mind

By Amaro Pereira

The Gatos from Santa Barbara are having one dice of a time. The poor boys had to cancel their game with Cal Ramblers this last weekend. The squad has been hard hit with injuries and did not have enough players to play the game. There are 24 players who have been banged up this season.

Tom Harmon is going to be inducted into the U. S. Army and nothing could be better for him. Seems like Tommy has gone Hollywood since he graduated from college and the Army will take that out of him quicker than anything else.

Stan Williamson, Santa Barbara State coach, is the uncle of "Mick" Woolcott. Many of you will still remember "Mick," as he was the mainstay in last year's basketball team. Stan Williamson was the captain of USC in his good old college days.

Poly's pass snagging against La Verne was really something. First it was Martinez who made a spectacular catch of a pass thrown by Lieb. Then right after that "Gordie" Woods came through with another one of those super catches. Nice going fellows.

Les Vanonconi, popular Cal Poly athlete, is stationed at the air corps in Oxnard. Les seems to be doing very nicely. I still would like to see the "Wop" go into a tail spin and come out alive.

Kenny Crist, La Verne's right half back, received quite a hard blow in last week's game. Although he was taken from the field in an ambulance it wasn't serious. It was first thought that he suffered a

## Poly Meets Tough Cal Ramblers Here Tonight

## First Fun Nite to be Held Nov 5

Poly's boxing team this year will be coached by Harry Kerwin, the welding instructor for the NYA students. He will be assisted by Dave Risling and Rob Heilman.

The boxing team are getting the kinks out of their muscles so they will be ready for Fun Night, which will be held on Nov. 5. The boys have been working out for three weeks. There is a total of 25 boys who turned out.

Some of the returning boys are Mike Maritoka and Rob Heilman, welterweights, and several other boys who are good prospects. The divisions of the team are, welterweight, lightweight, middleweight, light heavyweight, and heavyweight.

Fun Night will be sponsored by the Block "P" and is to be held in the gym. There will be boxing events as well as some Judo performances put on by the two Japanese Judo champions attending Poly. In addition to this there will be different acts to amuse the spectators.

Fun Nights are held annually here at Poly and have proved very interesting. It is something that everybody wants to attend. If the freshmen want to know how popular this event is just ask the upperclassmen.

Just keep the date, Nov. 5, in mind and don't forget to attend the first Block "P" Fun Night.

The State Engineers will be trying for their fourth win of the season tonight against a strong Cal Rambler team from Berkeley. The Ramblers are going to be fighting mad when the invade San Luis Obispo and the Mustang is going to have one hard night to put them into submission.

The Ramblers have only played one regular game this season and it was a seven to seven tie against the California Aggies. They outplayed the Cal Aggie squad but were unable to punch out a victory after threatening to score during the game.

The Cal Ramblers were to have played Santa Barbara State last Friday night. The game was called off on account of the condition of the Santa Barbara team. There were too many injuries and they were unable to offer any competition.

The University of California really went to town against the Ramblers in a pre-season game and came out on top by the score of 64 to 0. Ever since then the two teams have scrimmaged each other during the week and the Ramblers have improved tremendously.

### TO IMPROVE OFFENSE

The Mustangs have been working this week trying to polish up their offense for this game. Poly's offense was not clicking well against La Verne and the coaches don't like this to happen against the Ramblers.

The offensive powers of the Mustangs will be improved by the return of Bud MacDougall who has been nursing a bad ankle for the past two weeks. Although MacDougall may not start the game he will be sent in if the going gets hard. Bud will be used at the left half position where he will be able to break away for some long gains. MacDougall is big and fast and is very hard to stop once he gets going.

### RAMBLERS STRONG

The Ramblers will field one of the strongest teams that the Mustangs will have to play this season. Many of the players on the Rambler squad would be playing varsity ball if it were not for the strict eligibility rules of the Pacific Coast conference. The probable lineup for the visitors will be: Agler, lg; Laidorf, lt; Vanden Bosch, lg; Armendaris, c; Wild, rg; Thorburn, rt; Irwin, re; T. Smith, c; Zehrung, rh; Bertagnolli, lh; Warhurst, f.

### MUSTANGS UNCHANGED

The Poly lineup will remain unchanged and will start the game with Martinez and Meyers, ends; Cook and Nakunas, tackles; Sohrakoff and Wassum, guards; Lucksinger, center; Lieb, left half; Gordie Woods, right half; Bragg, fullback; Long, quarterback.

Huey Long and Joe Soroka will act as co-captains for the Mustangs tonight against the California Ramblers.

## Pint Size Full

Dick is a blond, jovial student and majors in aeronautics. Being a little smaller than Poly fullbacks of previous years, Dick has powerful leg drive that carries him for many gains. He is a good broken field runner and moves very fast. His defensive play is getting better with each game.

## Mechanical Industries Forms Club

A new course in mechanical industries and a new club has been formed by the industrial department at California State Polytechnic.

The course enables industrial students to specialize more in one phase of their course instead of getting a general idea of their whole course. For example: If a student wishes to specialize more in engines, he will be assigned to more hours in studying engines. This applies to all courses in the industrial departments. One could say that it is more or less a diversified engineering course.

The students who have enrolled in this course decided to start a club naming it the Mechanical Industries club.

The club officers have been elected as follows: president, Roy Carter; vice president, Ray Remmel; secretary and treasurer, Glenn Koller. The advisor of this new organization is Norman Sharp, instructor of the air conditioning department.

There are 20 members in the club to date and it is expected to grow rapidly, due to the fact that students from other colleges have received word of this new specialized course and are enrolling here.

The first activity of the year held by the Mechanical Industries club was a get-together at Pismo Beach Oct. 11. A celebration and skating party were the main attractions so that the members could become better acquainted.

Those who attended were as follows: Roy Carter, Eugene Domenechelli, Kermit Gastfield, Bill Gehhart, Harry Graham, John Hadden, Leroy Kawahara, Glenn Koller, Nye Locke, Ray Remmel, Hoshio Tanida, John Westfall, and Al Wise.

Others who are enrolled in the course but could not attend are as follows: Sam Cook, Ed Grubb, Bill Himmelman, Ralph Osborne, and Bob Wims. Other activities are planned for tentative dates.

## Poly Project Animals to Show at Cow Palace

(Continued from page 1) and judging of pens will be held in the afternoon of the same day. **EXPERT JUDGE**

An outstanding group of experts will be on hand to judge the animals entered. Fat beef will be judged by Alex McDonald, of international fame, the beef herdsman at the University Farm at Davis. Loyal Knollin, lamb buyer for Swift and company, will judge fat sheep classes. The head hog buyer for the Cudahy packing company, Paul McBride, will place the fat hogs.

Poly will also be represented at the Grand National Rodeo, which promises to be one of the most important contests in the United States. Gordon Davis will enter the calf roping in competition with North America's most famous ropers. \$5,555 will be added to entry fees in the rodeo to make up a purse to reward winners of various events. The stock is being furnished by Harry Rowell of Hayward, and Leo Cramer of Big Timber, Montana, where the bucking horses are.

## POOR SPIRIT SHOWN FOR LA VERNE RALLY

Only about 75 students turned out on Oct. 16 for the La Verne game rally in the gym. Ben Barr, however, was able to get up quite a noise from the little group. He led several songs and yells. The band stopped in on its way to practice and added to the cheer with a lively march. Although a better turnout was expected, enough spirit was shown to impress the visiting Army basketball team and cheer the home team towards a victory. The rally started at 7:30 p. m.

## Proceeds of Women's Faculty Card Party to Benefit Student Loan Fund

Wednesday night at the home of Mrs. W. B. Howes, members of the committee in charge of the Ninth Annual California Polytechnic Women's Faculty card party worked on tallies and decorations for the party which is to be held Thursday, Oct. 30, in Crandall gymnasium.

The public is invited to attend the party which is a benefit for the California Polytechnic student loan fund, Mrs. Howes announced.

Both contract and auction bridge will be played and prizes, donated by every department of the college, every chapter of the Women's Faculty club, and various fraternities and clubs at the college, will be awarded to holders of high scores. Winners will be given their choice of a great array of very valuable prizes, according to Mrs. Weir Fetter, chairman of the prize committee. Assisting Mrs. Fetter are Mrs. Harold Wilson and Mrs. C. O. McKee.

The decorating committee of Mrs. Paul Dougherty, chairman; Mrs. Vic Hansen, and Mrs. Marvin Anderson, are completing plans for decoration of the college gymnasium in a Halloween motif.

Refreshments are being handled by two committees, Mrs. Howes said. Food will be supplied by the

## Ag "Inspectors" Starts Club Here

For the last two Wednesdays the agricultural inspection students got together to begin an Agriculture Inspection club. They intend to follow the pattern set by the Voorhis Ag. Inspection club at San Dimas. The club is primarily to keep the inspection students at San Luis in constant touch with all the developments in this field. The students plan to have a schedule wherein notaries of quarantine, plant pathology, standardization, and other inspection branches will explain their duties.

The club has been approved by G. W. Fetter, Walter Patchett, and W. E. Court, head instructor of the agriculture inspection department located at the Voorhis Unit.

The members have already gotten under way by hearing an interesting discussion on the Pierce disease given by Stan Johnson, their president. They intend to receive Fred Briggs and Jack Helfend, who are experienced members and who will discuss their inspection work during last summer.

## Aero Facilities To be Imitated

Representatives from several schools have recently checked our aero-plant layout and hope to duplicate Poly's model layout of the aero shop in some way in the near future.

Recent requests for blueprints have come from Reedley, J. C. and Chico, J. C. asking for drawings on a special construction work bench which is being used in our aero shop. Several requests have been made from various institutions for drawings of the rather novel equipment in the aero shop. During a recent visit Roy Metz received requests from Randolph and Shanoot fields for drawings of a cut-away motor showing all the oil passages in the motor and later received another request from Moffett Field.

The aero drafting class is co-operating with the construction and the engine room and are drawing up enough blueprints to fill out any order from the various aero institutions which might request them.

Vigneau Jewelry  
San Luis Obispo  
California

847 Monterey Telephone 593-J

committee of Mrs. L. E. McFarland, Mrs. M. C. Martinsen, Mrs. Julian A. McPhee, and Mrs. J. C. Deuel, chairman. Coffee will be supplied by Mrs. E. A. Egan, and Mrs. Paul Winters.

Arrangements for tables are being handled by Mrs. Eugene Boone, chairman; Mrs. Fred Lucksinger, and Mrs. Harry Kerwin.

Any persons wanting to reserve more than one table should call Mrs. C. E. Knott, telephone chairman, at 842-M. Mrs. Knott is being assisted by Mrs. Roy Metz.

## No Change in "Crops" Name

Out of this year's hottest debate in a crops club meeting emerged the decision to retain the simple title of "Crops Club." Several more romantic suggestions were rejected and the final vote saw the present title triumph over the tongue twisting "Imua O Ka Lepo," candidate of the Hawaiian element, by the slim margin of some three votes.

At the suggestion of several advocates of the good neighbor policy, vote upon the issue was postponed one week to allow time for the quest of some Latin American, or Spanish name. These, however, were rather vague as to meaning, and pronunciation, so it was that they were set aside by a preliminary vote, leaving only the Hawaiian choice and the final choice, "Crops Club."

So it is that the Hayseed Hatchers here at Poly will continue to go under the title of "Crops Club" for another year.

## Polyphase and NYA Radiomen Cooperate

The NYA radio technicians' group, under the supervision of L. B. Cormack, has formed a partnership with the Poly electrical department this year. The NYA radiomen are now undertaking the reconditioning of the Poly student body public address system.

Although the parts for this job have been ordered, as yet they have not arrived and at the last football game an improvised announcing system was used. The Poly electrical department still has charge of stringing the lines and completing the hook-up.

According to J. J. Hyer, "the NYA students are cooperating with our electrical department to the fullest extent and we feel that our relationship with them is going to be very pleasant, indeed. With the NYA group and 33 new freshmen students we anticipate a banner year for our department."

The NYA-Poly partnership is further consolidated by a number of NYA students taking special courses in the Poly electrical department. This department is in charge of the maintenance of all electrical equipment on the campus and stands ready to be of service to any group needing electrical aid.

## Pretzels and- Offered with "Drunkard"

That rabble-rousing "drummer," "The Drunkard" complete with three hour after show, beer and pretzels-awoke San Luis Obispo citizens last night at the Service Center.

Come one, come all, let's go men to see and enjoy this well known play. Admission price is 75 cents and the show starts both this evening and tomorrow at 8 p. m.

This famous presentation of Clyde Kraft and players is sponsored by the Purple Heart Organization, and has just completed a very successful three year showing in San Francisco. Kraft is a very distinguished actor and is a graduate of the Texas Agricultural and Mechanical college.

The committee of local citizens to whom credit should be given for securing this widely known play are: Miss Oma Anderson, Mr. and Mrs. J. J. Dunne, Ed Boyle, Mrs. D'Esta Conklin, Texas J. Cassidy, Mrs. Alvin Ledbetter, George Taylor, Shannon Horn, Ralph Kennedy, Roy Mingins, Alvin Ledbetter, Mrs. D. C. Imboden, Robert Shelby, Mr. and Mrs. Harry Nuss, Miss Edith Owen, Mr. and Mrs. Murray C. Hathaway, Mrs. Pearl Hull, and Mr. and Mrs. Ed Milligan.

## Female "Wolves" Take Buck Lash For Ride At Library Convention

The forty-sixth annual convention of the California Library Association was held at the Hotel Del Monte Oct. 15-18. Henry Lash, Cal Poly librarian, attended the College and University section of the meeting, and was very impressed by the various talks given there.

The most interesting talk, he said, was given by Allison Ross, whose subject was "Berlin and Tokyo, the New Imperials." Another good speaker was Dr. Arundell J. K. Edalle, president of the Library Association of England, who talked about the British libraries in the war. Franz Schick emphasized the fact that libraries should spread propaganda to beat Hitler in his lecture entitled "Propaganda and the Library."

The gentlemen were outnumbered five to one at the convention, and Lash showed true Poly spirit and did his share and more by taking out seven cultured young ladies all in one night.

In conclusion, let us say that about the only business that makes money today without advertising is the mint.

## Letters to the Editor

(Continued from page 1) open until the beginning of the next quarter.

I walk up a hill and down a hill and then up a hill and down a hill three times a day to get in a line of about 150 students where I wait for at least 15 minutes to get to the serving line. I won't say anything about the food because I know that it's not humanly possible for anyone to prepare a good meal for 400 students with the facilities that are in existence at present. After we get our food, we sit down at a table which is in the way of the waiters who must do considerable running around, and in the way of those students who are carrying trays of food and student who are attending to the cafeteria workers.

Moreover, what's being done on the new safe right now?

We realized at the beginning of the year that we would have to be patient and make concessions. But there's a limit to everything, and I know about 400 students who are getting slightly impatient about the relieved safe conditions which have been promised too many times in vain. Many have even started eating in town, and gas and oil for cars makes for a great many dents in the pocketbook.

We are writing this with the hope that it may keenly impress the administration of a vital need on the campus—a need which should be remedied now! How about it?

Signed: Inconvenienced.

## Landscaping of New Dorms is Progressing

Landscaping of the new dormitories is progressing very satisfactorily under the supervision of Wilbur Howes, horticultural department head, and L. E. McFarland, superintendent of maintenance and operation.

Assisting them is Edmond Jauch, Poly graduate of 1935. Jauch was formerly chief propagator of California Nursery company at Niles, and has returned to help landscape the new dormitories and administration building.

Grading of walks on the dorm grounds is nearing completion and rough construction is well under way. The material will be of the macadam type, the buildings will be fully landscaped with appropriate shrubbery, and because of this it was necessary to remove the top soil to one side scrape considerable dirt down to the grade line and replace top soil. Considerable work and expense was entailed by this movement of top soil but the results will more than warrant the trouble required.

## Roads and Walks at Poly to be Improved

Contracts have been let for widening by six feet the streets around the air conditioning building. The contract also includes the construction of sidewalks and curbs.

The short street by the gymnasium will also be widened to 50 feet.

## 282 "Cinch" Notices Issued

Cinch notices were sent out to all students now receiving failing grades in any class during the past week, Registrar Eugene A. Egan announces.

All students receiving notices of failure in two or more classes were required to meet with the grades committee yesterday and today. Any student receiving cinch notices of failure in two or more classes who failed to report to the committee must go to the main office and receive a clearance before attending any of his classes next week.

If any student's failing grade is due to too many absences and that student has excuses on file in the main office, his position will be improved when the absence lists are sent to the instructors.

Receipt of a cinch notice is the first step towards being placed on probation. Students earning less credit than units in which they are enrolled when the quarter ends, will be placed on probation for the ensuing quarter.

## J. I. Thompson Addresses Poly Livestock Group

J. I. Thompson, livestock specialist for the agriculture department of the board of education, addressed Tuesday's meeting of the livestock problems class on the subject, "Expectations of Students."

Thompson discussed what the school expected of the students and what the students expected to do after graduation from the school. He pointed out that the only obligation the students owed the school was to make the most of his time here by learning all he could in the course in which he was enrolled.

George Raymond, president of the Boots and Spurs club, introduced Thompson.

Telephone Operator: "Is this 1749?"

Maid: "Yassum."

T. O.: "Is this Mrs. Blots' residence?"

Maid: "Yassum."

T. O.: "Long distance from Washington."

Maid: "Heh, heh! Yassum, hit sho' is."

You'll enjoy seeing MARJORIE WOODWORTH in the current Hal Roach hit "ALL-AMERICAN CO-ED" released through United Artists.

You'll enjoy Chesterfields, the All-American pleasure smoke with the definitely Milder Cooler Better Taste.

If...like the All-American Girl... you want a cigarette that's Milder

It's Chesterfield

If...like the All-American Girl... you want a cigarette that's Milder

It's Chesterfield

Try a couple of packs. We feel sure you'll be coming back for more... because Chesterfield's right combination of the world's leading cigarette tobaccos makes them so much Milder, Cooler and Better. Testing that more smokers are turning to them every day.

Yes, the approval of smokers is the big thing that's pushing Chesterfield ahead all over the country.
